

Carpenter Family Cabin

**12738 Smoky Drive
Donnelly, Idaho 83615**

Dear Guests,

We hope you enjoy your stay at our mountain retreat. All amenities of a well stocked home are provided, such as complete kitchen facilities including microwave, stove, and refrigerator. There is a Propane BBQ located in storage shed outside and to the right of back door (key is kept in the key box in the kitchen). The cabin is a 1995 manufactured home with, two bedrooms, one bath, and two storage sheds. The master bedroom and guest bedroom have a queen bed and a twin bed. The living room has a futon that can convert into a double bed. There is a TV with satellite, Xbox to play games and DVD movies, but no VCR. In the master bedroom there is a phone to make local calls and can be used in emergencies. Most things have been provided for you. We do, however, ask that you **do not smoke inside**, keep your **pets outside** and provide your own:

- **Bedding (sheets, pillows, sleeping bags)**
- **Towels**
- **Shampoo, body soap and personal care products**
- **Food and Drinks**

(If you do forget to bring bedding or towels, there are some available in the master bedroom closet. Feel free to use these items, just wash and return to us.)

Please follow the "Check-in" and "Check-out" procedures carefully. We want your stay to be a pleasant one and hope you will enjoy the cabin as much as we do. Enjoy!

Scott & Wendy
